

WHAT ARE QUIZ LOGS?

Teachers can view quiz logs to view the status of students quizzes. This feature is designed to help teachers investigate problems that a student may have in the quiz and gain insight into your quiz questions.

The quiz starts the log when students begin the quiz, so some logs may show that the quiz is in progress.

HOW DO TEACHERS ENABLE IT?

1. Go to settings in the course

Home

Syllabus

Grades

Quizzes

SCORM

Modules Google Drive

Discussions

Conferences Pages

Collaborations

People

Rubrics

Outcomes

Settings

Files

Assignments

- Click "Feature Previews"
- Look for the option "Quiz Log

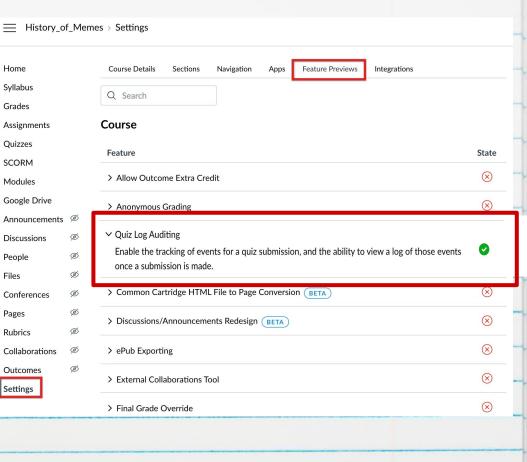

Auditing"

4. If not selected click the

"X" to enable

Note: If they do not see it, have them

reach out to their admin

- Go to guizzes and select the guiz
- Click the three dots then click
 - "Show Students Quiz Results"
 - Select the student in question then click view log

Note: you can also access this page by clicking on "Moderate this quiz" and

selecting the students name.

Also if a student did not take the quiz their name is not clickable from the "Students

who haven't taken the quiz" list

HOW DO WE CHECK THEM? (CLASSIC) CONTINUED 2

active on the quiz page, but has not answered the question. Answered a question, displays when a student has answered the question. If questions are shown being answered multiple times, the student either changed their answer(s), or the answer was

student navigates away from the guiz (closes the browser tab, opens a new browser tab, or navigates to a different program).

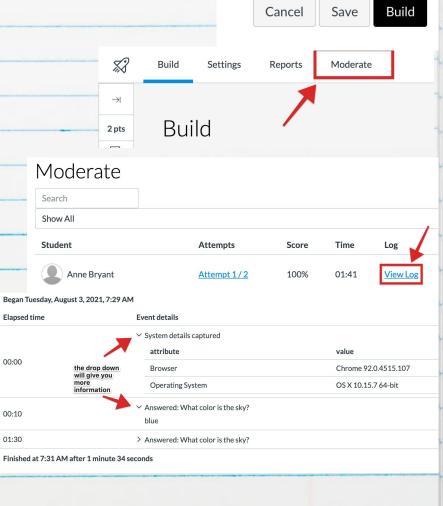

Resumed displays when the student has returned to the quiz.

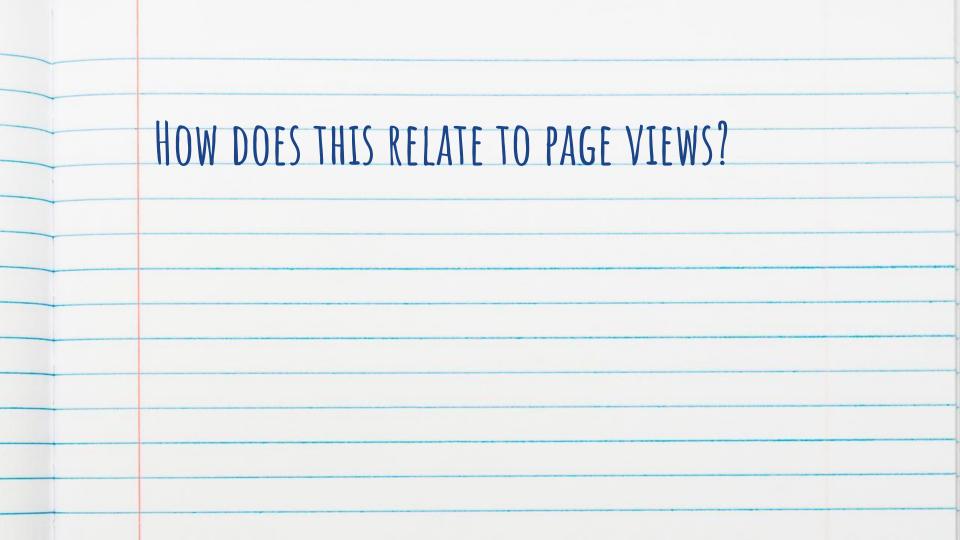

Note: If you click on the "answered guestion #" it will show you what they answered

HOW DO WE CHECK THEM? (NEW)

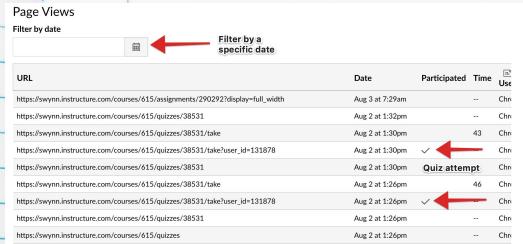

- 1. Go to the New Quiz you would like to check and click build
- 2. Once you have that opened go to moderate and click "view log" by the students name

In the log, you can view the time and date a student began the assessment and completed the assessment. You can also view each event a student completed while taking the assessment and the time that event was completed.

PAGE VIEWS

Time is calculated by the number of seconds a user interacts with a Canvas page. Canvas records interactions at a minimum of 10 seconds or a maximum of 5 minutes to document when a user physically interacts with the page, such as clicking the mouse or using the keyboard.

Participated indicates whether the user participated in an activity that required action, such as submitting an assignment, replying to a discussion, or contributing to a page.

Page views allow us to confirm what we see on the moderate page. Unfortunately teachers will not be able to access this page but we as Support can go in and verify this information

COMMON QUESTIONS YOU WILL GET..

- 1. My student says they submitted but it doesn't look like it was taken, can you check to see if you can find their quiz results?
- 2. How long was my student in the quiz?
- 3. Why does a quiz log shows "Answered the following Questions: 1, 2, 5, 6, 9, 11" at the top before the student actually answer anything?

THINGS TO REMEMBER

- · Quiz logs should not be used to validate academic integrity or identify occurrences of cheating.
 - · "Quiz Log Auditing" is currently a course opt-in feature.
 - · Quiz logs (for classic) are only retained for six months.

CONCLUSION

- · Remember teachers cannot see page views
- · Quiz logs begins when the student clicks start/begin
- · Quiz logs should not be used to validate academic integrity or identify occurrences of cheating.
